So, who are the STARBabies?

The Stardom Chance Guild (SCG) STARBabies NFT Series is a limited collection of NFT art depicting toddlers playing dress up as their favorite characters. All great films create personal connections, special memories and often transport us to another place, time, or world. The STARBabies will do just that and no doubt you'll connect with one, if not all these toddlers. Beyond being a unique, one-of-a-kind piece of art, every STARBabies NFT comes with all the perks of your Stardom Chance Guild membership.

The Stardom Chance STARBabies NFTs brings to life, in a unique way, characters from some of your favorite stories and films via toddlers playing dress-up and immortalizing them in the form of an NFT (Non-Fungible Token) you can own and collect. Why do they look like babies? Stardom Chance is rebirthing the film and television industry. As such, you'll find our characters are depicted as toddlers, a parody of film roles they are dressing up as. These toddlers are fresh-faced, creative, fearless and determined, each one a unique one-of-a-kind piece, and their after-market value will fluctuate based on the rarity of its features.

Which rarity your NFT holds will be unveiled at the Stardom Chance STARBabies NFT Reveal Party (think of it as the Red Carpet without the carpet, high heels, and expensive limo but on-line, at home and still in your PJ's). After the NFT Reveal you will be able to see your NFT image, all its realities and potentially find you've just landed a speaking role in an upcoming film!!!
